Bid variations cause sewer repair delays

By ELLIS CUEVAS

The Bay St. Louis City Council took under advisement until a recess meeting tomorrow five bids on emergency repairs to the intersection of Carroll and Necaise Avenues.

An apparent sewer cave-in caused an eight inch water line to rupture two weeks ago, threatening some 25 households with loss of water. City

crews repaired the water main in about six hours.

Bids on emergency sewer repairs were received from Gregory Constructors, Inc., Gulfport; Shaw's Supply Company, Inc., Perkinston; Allen Enterprises, Long Beach; Coast Heavy Equipment Company, Inc., Pass Christian; and Long Beach Construction, Inc., Long Beach.

Among reasons for the bids being taken under advisement is some are based on an hourly rate and others offer a fixed price for the job.

Coast Heavy Equipment bid \$13,840 and Long Beach Construction's price is \$15,625.

In the Coast Heavy Equipment bid, the price includes labor and materials except blacktopping. The Long Beach Construction Co. bid offers to supply only labor with the City supplying materials.

Both Long Beach Equipment and Coast Equipment submitted hourly rate bids.

The hourly rates were quoted for certain equipment and also for workers.

The Bay's new term of government goes into its second year with 36 cave-ins throughout the city. When they took office in July last year there had been only one cave-in up to that time.

REPAIR DELAYS-Page 4

Fuzz busters beware, Patrol has new radar

By EDGAR PEREZ

The Mississippi Highway Safety Patrol's Eighth District which includes Hancock County is now equipped with seven anti-fuzz buster radar units for use in speed law enforcement.

Inspector George Saxon, district chief, said the new radar units have been installed in district patrol cars, replacing older units which were effectively thwarted by public fuzz busters.

"A motorist with a fuzz buster in his car could detect a Patrol radar signal from the old units before the officer could get a speed reading on the offending vehicle," Saxon explained.

The motorist could then slow down to within the speed limit, the inspector pointed out.

"Drivers with fuzz busters will still be able to detect Patrol radar signals, but it will be too late—the officer already will have gotten his reading," Saxon warned.

Public Safety Commissioner James Finch said his agency is "gravely concerned" about an apparent increase in the number of people ignoring speed limits.

"Already this year, 42 traffic accidents have produced 48 deaths on Mississippi highways as a result of motorist driving too fast," the commissioner lamented.

"A great number of people who choose to ignore the speed limit, do so

with the aid of a device known as the fuzz buster," Finch said. "In an effort to do all we can to keep people from killing themselves on the highways, we are installing new radar guns in 63 of our enforcement cars."

"These units will be installed in seven cars in each of our nine districts, and are equipped with an anti-fuzz buster device, he continued. "After they have been in use for a while, hopefully, we will show a decrease in fatal accidents that are caused by motorists traveling too fast."

Finch reported, "There are several thousand Mississippians who support the Mississippi Highway Safety Patrol in its efforts to enforce traffic laws on the highways in such a way as to make them as safe as possible."

"People have expressed their appreciation for our efforts on their behalf and this project is just a continuation of us fulfilling our responsibility to the law abiding public," he added.

"If this upgrading of our equipment is successful in decreasing the number of fatal accidents that happen because of excessive speed, and we feel it will be, we will try to equip all of our enforcement units with the new radar guns that have the built-in anti-fuzz buster feature," Finch stated.

Finch added, "We are asking that the motorists in Mississippi continue to support our safety efforts."

Purvis woman killed on 603, husband hurt

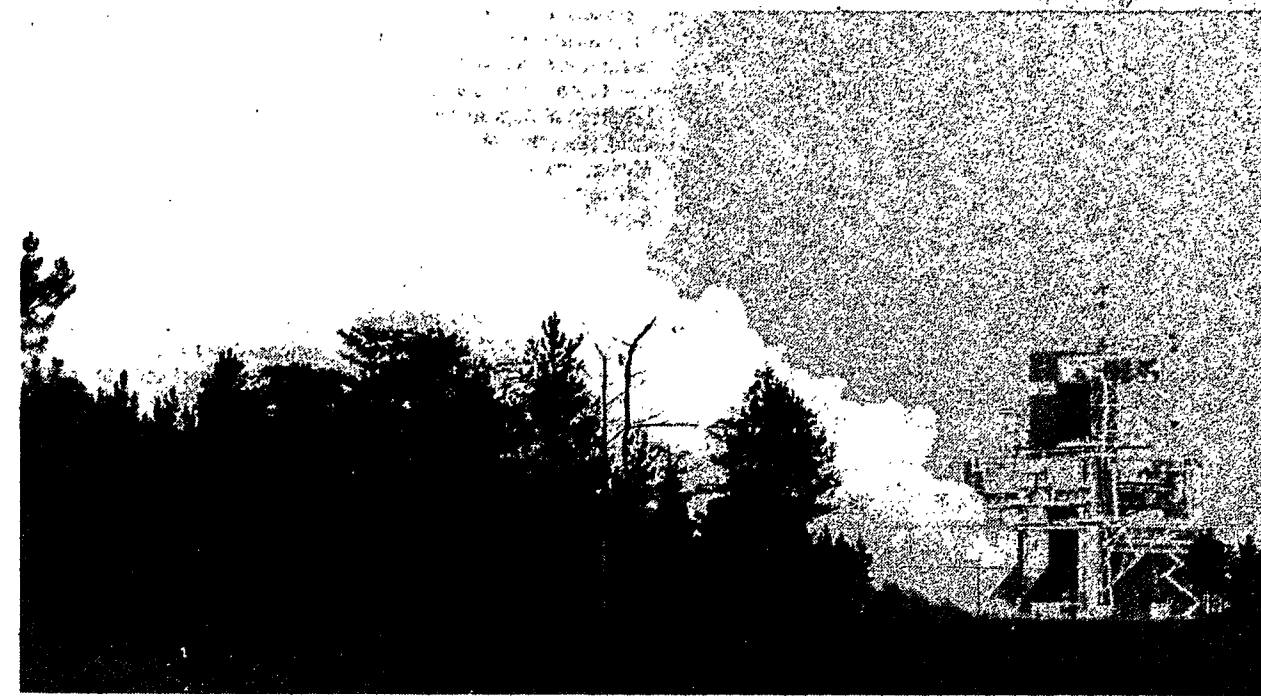

Mrs. Violet H. Hall, 51, of Box 246, Purvis, was pronounced dead at the scene from injuries sustained in a two-car collision at Necaise Crossing Friday, according to Hancock County Coroner Carl Banderet.

The accident occurred on Highway 603 in North Hancock County about 3:25 p.m.

Rev. Thomas Hall, her husband, was taken to Hancock General Hospital in undetermined condition.

Banderet held a coroner's inquest at the scene with Jerry Freeman, Erwin Hoda, Charles Pernicaro, Willys Garcia, Charles Farve, Hershel Ladner and Curtis Newman serving as bailiffs.

The coroner said the Mississippi Highway Safety Patrol investigated the accident.

MAIN PROPULSION FIRING—The Space Shuttle's main propulsion test article was successfully static fired at NASA's National Space Technology Laboratories in Hancock County for 100 seconds Friday at 12:47 p.m. It was the fourth successful firing for the shuttle orbiter propulsion system, during which its three main engines were fired at varying power levels up to 90 percent, testing the system's throttling capabilities. Bob Bush, space shuttle resident manager at

NSTL, said, "From the quick look data that we have had an opportunity to review, the test was 100 percent successful, meeting all of our test objectives." One of the engines was shut down during the last 10 seconds to test the system's flexibility. The three engines are installed in a shuttle orbiter aft fuselage section mated with a 154-foot flight-type external tank. The system uses liquid hydrogen and liquid oxygen propellants. Townsend resigns school post, Bay Council to name successor

By EDGAR PEREZ

Waveland's popular and sometimes controversial member of the Bay St. Louis Municipal Separate School Board, Ms. Jean Townsend, announced Friday she will be forced to relinquish her position on the board.

Ms. Townsend will follow her husband to a new assignment at the Triton Nuclear Submarine Base in Puget Sound, Wash.

Ms. Townsend and her husband Gerald have both been civilian employees of the Naval Oceanographic Research and Development Activity at NASA-NSTL for the past several years.

"Waveland has lost a dedicated trustee—we could use more like her," said Waveland Mayor John Longo Jr.

"I only hope we are fortunate enough to find someone like her to fill the vacant slot—we wish her Godspeed in her new assignment," Longo added.

Bay St. Louis City Council President

James Thrifley said, "Mrs. Townsend always conducted herself in the best interests of the entire community in her efforts to upgrade the quality of education in our school system while keeping a close eye on the disbursement of school funds."

"We are indeed losing a high quality educator," Thrifley added.

"I certainly enjoyed working with her—she is progressive and always 100 percent for the betterment of our schools," commented Superintendent of Schools J. D. McCullough with whom Ms. Townsend frequently clashed over differences they held on some policies.

"I could always call on her, she stood ready to help at all times," the superintendent added.

Ms. Townsend has frequently been at odds with McCullough and her colleagues on the board over its policy of non-recognition of the Bay St. Louis locals of the American Federation of Teachers and Mississippi Association of Educators.

She has challenged the board on its approval of administrators' expenses to

attend MAE gatherings while continuing in its non-recognition stance. Administrative salary hikes have been another area where Mrs. Townsend and McCullough clashed.

TOWNSEND-Page 4

Little Theatre opens tryouts tonight for 15

Tryouts for the production of "The Night of January 16" to be presented by the Bay St. Louis Little Theatre will be held tonight at 7:30 p.m. at the Boardman Street playhouse.

Both men and women 18-years-old and above are invited to tryout for the 15 member cast of the courtroom drama to be directed by Michael Hamm.

The play offers several roles for beginning actors, Hamm announced. For information, call 467-4747.

Covered wagoner Boston bound, plans tax revolt Tea Party revival

By RICH ADAMS

Motorists on US-90 in Hancock County were doing double-takes and unbelieving second looks as a stranger came riding into Waveland on a red, white and blue covered wagon.

It was not the heat of the noon sun causing mirages. It was Jay Eubank, who bills himself as a "modern day Minuteman" and is a 1980 Presidential candidate.

Eubank, a 56-year-old native of

Bryant, Texas, stopped off in Waveland Thursday on his way to a 1978 "Boston Tea Party."

The self-styled Minuteman who is caught up in the current "taxpayers' revolt" gaining nationwide momentum, said he will visit here a few days with the Hugo Favre family in Shoreline Park.

He describes himself as being "just like anyone else," but the man who has travelled more than 8,000 miles in a covered wagon since 1976 is quite different.

He boasts of having been the guest of Gerald Ford, Queen Elizabeth, Elvis Presley, John Wayne, Ava Gardner, and Roy Rogers.

He has appeared on the Mike Douglas Show and the Tonight Show with Johnny Carson.

Eubank, a storyteller, entertainer, parade marshal, philosopher, and part-time preacher travels all over the United States in his covered wagon pulled by his small grey pony, Hobo.

In Boston he plans to reenact the Boston Tea Party to help promote the taxpayers' revolt sparked by passage of Proposition 13 in California last month.

"I was in a Stockton, N.Y. hospital for nine weeks after a heart attack," he explains, "and read some history books."

The book fell open to the section on the Boston Tea Party, and I decided I would reenact it," Eubank continued.

"I don't think it has ever been done before. I hope others will follow my example."

Eubank is against high taxes today, and was an active supporter in California of Proposition 13.

BOSTON BOUND-Page 4

TAX CRUSADER—Jay Eubank drove into Waveland Thursday in this covered wagon for a brief pause on his way to Boston, Mass., where he plans to reenact the Boston Tea Party as part of his crusade to lower taxes. While in this area he was made an honorary citizen of Bay St. Louis by Bay Mayor Larry Bennett and an honorary member of the Bay St. Louis Police Department by Police Chief Douglas Williams. Eubank will hit the trail for Biloxi tomorrow at 9 a.m. with an honorary police escort to the Bay automobile bridge. (Staff photo-Rich Adams)

NEW PUMPER—The City of Waveland took delivery on a new 1,000 gallon capacity fire truck from the Moosa Equipment Company of Eunice, La., Thursday. According to Waveland Fire Chief Kenneth Fayard, the fire department will further equip the truck with a resuscitator, oxygen masks, and an assortment of nozzles. The new piece of equipment cost the City \$49,000. (Staff photo-Rich Adams)

Ma Bell to modernize phones in City Hall

By ELLIS CUEVAS

One number only will be needed to call all Bay St. Louis City Hall offices. Bay St. Louis Council was unanimous in its vote Wednesday to have South Central Bell install a modern phone system in City Hall.

Allen Jones, representative for South Central Bell, told Council the system will send all calls through one person. Only five incoming lines on a rotating system will be needed to handle eight times as many calls as the present seven incoming lines serving City Hall.

According to Jones, there will be many advantages to the new system. In the event of a power failure, several lines will be supplied power from South

Central Bell. A voice intercom will be available at 14 stations in the building, and the person operating the system will know when a department's lines are busy, and will be able to accept a message from the caller.

If someone is out of City Hall and gets a call it can be patched to any outside number when he may be reached. Jones offered several options on payment of the new installation. The cost of the service will be a few dollars per month higher than the present system but after five years, according to Jones, the phone bill will be cheaper for the more modern, up-to-date phone system.

DeHaan youth condition poor, Edwins is fair

A 76-year-old Bay St. Louis woman is listed in fair to good condition at the Gulfport Memorial Hospital after the car she was driving was struck by a train in Pass Christian Thursday morning.

Mary Ruth Edwins of 201 Ulman Ave. was thrown from her car after being struck by an east-bound Louisville and Nashville Railroad train, Pass Christian Police reported.

She suffered multiple facial lacerations and fractures, according to a hospital spokesman.

The accident occurred at the Clarence Avenue crossing at 11:45 a.m. Thursday, police reported.

Also at Gulfport Memorial Hospital Friday, Kevin De Haan, 18, of Waveland, injured in a non-collision accident Tuesday, July 4, on Waveland's "Beach" Boulevard, remained in intensive care, listed in poor condition, according to the hospital.

St. Clare's forms setting for Mitchell - McGill rites

MR. AND MRS. KENNETH MCGILL

Miss Pamela Ann Mitchell, daughter of Mr. and Mrs. Thomas Mitchell of Waveland, and Kenneth Wayne McGill, son of Mr. and Mrs. James McGill of Kiln, were married Saturday afternoon, June 24, in St. Clare Catholic Church, Waveland. Rev. Msgr. John Scanlon, pastor, performed the double ring ceremony.

Baskets of yellow chrysanthemums, white carnations, daisies and fern decorated the church. A program of nuptial music was rendered by Mrs. Mildred Means, organist.

Given in marriage by her father, the bride wore a princess style organza gown featuring a rounded neckline and full sleeves.

Cluny lace outlined the neck, sleeves and hem and embroidered appliques of Venice lace were scattered over the dress and train. Matching lace motifs trimmed her elbow length veil and she carried a bouquet of daisies, white carnations and yellow chrysanthemums interspersed with white ribbon streamers.

Glenda Yennie, Waveland, attended the bride as maid of honor. Bridesmaids were Carol Feigel, Waveland, aunt of the bride, and Darlene McGill, Kiln, sister of the groom.

Junior bridesmaids were Donna and Sandra Mitchell, sisters of the bride.

They wore yellow dotted Swiss dresses trimmed with white lace and white picture hats accented by yellow ribbon. Each carried a single yellow rose.

Loren Necaise, Kiln, was best man. Groomsmen were Darrell McGill, Kiln, brother of the groom, and Andrew Mitchell, Waveland, brother of the bride. Mike Henley Kiln, and Rickey Mitchell, brother of the bride, served as ushers.

The mother of the bride received guests wearing a floor length blue chiffon dress and the mother of the groom chose a yellow floor length gown.

Following the ceremony, a reception was held at the American Legion Home, Waveland, where the bride's

table, overlaid with a lace cloth, was centered with a five-tiered cake decorated with yellow roses. A miniature bouquet of yellow and white flowers trimmed the top tier. Candelabra holding tall white tapers were on either side.

Karen Thompson kept the guest register and Mrs. Betty Thompson, presided at the cake table. Others assisting at the reception were Cherrill Necaise, Patricia Lafontaine and Denise LaFontaine, all cousins of the bride.

For her wedding trip to Mobile, Ala., the bride chose a pink floral print sun dress with white accessories. A corsage of pink carnations completed her ensemble.

The couple will reside in Kiln.

YOUTH NATURE CAMP

The Garden Clubs of Mississippi, Inc., under the direction of Mrs. Noel T. Cumbaa announce their third annual Youth Nature Camp, July 11-13, at Holmes County State Park. Explorations in soil, forests, water, wildlife, and plant identification will be highlights.

Waveland double ring rites join Mestayer and Luedtke

Miss Beth Ann Mestayer, daughter of Mr. and Mrs. Richard F. Mestayer of Waveland, and Mark Chase Luedtke, son of Dr. and Mrs. Walter E. Luedtke of Emporia, Kans., were married at 6:30 p.m. Saturday, July 8.

The candlelight ceremony, held at the home of the bride, was attended by members of the immediate families. Rev. Dwyne Mounger performed the double ring ceremony.

Greenery, magnolias and ivy decorated the home. Given in marriage by her father, the bride chose a white eyelet embroidery off-the-shoulder dress fashioned with a full skirt. She wore gardenias and baby's breath.

Mrs. Richard Mestayer,

New Orleans, sister-in-law of the bride, was matron of honor. Dena Fair Jackson of Waveland, Miss., was maid of honor. Mallory Mestayer of New Orleans, served as flower girl.

They wore pale yellow dresses and carried white and yellow daisies.

Dr. Luedtke attended his son as best man and James F. Ternes, Emporia, Kans., served as groomsman.

The couple will reside in Albuquerque, N.M.

Out of town guests were Mr. and Mrs. Percy Allen, Kosciusko, Miss., grandparents of the bride; Mrs. Texas Gustavson, sister of the groom; Emporia, Kans.; Mr. and Mrs. C.M. Jackson,

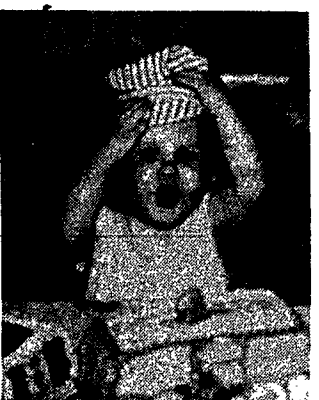

Kosciusko; Dr. W.A. Smithson, Jackson, Miss.; Mr. and Mrs. James Sutterfield, New Orleans; Dr. and Mrs. Gordon Stanfield, Biloxi, Miss.; Mr. and Mrs. Henry Craig, Miss. Caroline Craig, Kirby Craig, Mr. and Mrs. Larry Lloyd, Eldorado, Ark.; Mrs. Melanie Myers, San Francisco, Calif.; Mr. and Mrs. Jim Horn, Pascagoula,

Miss.; Dr. and Mrs. Parkerson Laville, Baton Rouge, La.; Mr. and Mrs. Roland Mestayer, Jr., Pascagoula; Mrs. Roland Mestayer, Sr., Mr. and Mrs. Henry Mestayer and Mr. and Mrs. Ivan Foley, all of New Orleans, and Dr. and Mrs. E.P. Burvant, Covington, La.

MRS. MARK C. LUEDTKE

First birthday fete honors

DONALD RAY III

Donald Ray III celebrated his first birthday Wednesday, June 28, at a party in the Bay St. Louis home of his parents. A train cake centered the refreshment table.

Joining in the celebration in addition to Mr. and Mrs. Ray were his sister Denee, Kim and Chris Green, Lisa and Lora Day, Christopher Ray, Brian and Lawrence Favre, Mrs. Laura Ladner, Mr. and Mrs. George Day, Mrs. Marie Gree, Mr. and Mrs. Tommy Ladner, Miss Marlene Ladner and Mrs. Jeanne Ray.

BIRTHS

CUEVAS TWINS

Mr. and Mrs. Lector Cuevas, Jr. of DeLisle announce the birth of twin boys Thursday, June 29, at Gulfport Memorial Hospital. They are Wade Anthony, three pounds four ounces, and Ward Benjamin, three pounds two ounces.

Paternal grandparents are Mrs. Ethel Cuevas and the late Lector Cuevas.

Maternal grandparents are Mr. and Mrs. Lawrence Necaise.

Great-grandparents are Mrs. Rebecca Cuevas and Mrs. Ernestine Bradley.

All are of Pass Christian.

EATON A. LANG IV

Mr. and Mrs. Eaton A. Lang III of Pass Christian announce the birth of their first child, a boy, Eaton Adlai Lang IV, at 10:23 a.m., July 4, 1978, at Gulfport Memorial Hospital.

He weighed eight pounds-1.5 ounces and was 22 inches tall.

Mrs. Lang is the former Lucinda Kidd.

Maternal grandparents are Mr. and Mrs. Lucien Kidd of Bay St. Louis, and paternal grandparents are Mr. and Mrs. E.A. Lang Jr. of Pass Christian.

RENE BIRCH BANKSTON
Funeral services for Rene Birch Bankston, 23, formerly of Bay St. Louis, a native of New Orleans and a resident of Ringgold, La., were Saturday, July 1, in Ringgold. Burial was in Ringgold.

He died Thursday, July 29, 1978, in Ringgold as a result of injuries suffered in an automobile accident.

Survivors include his wife, the former Polly Ann Foshee; one son, Rene Birch Bankston Jr., both of Ringgold; his parents, Birch O. Bankston and Barbara Ann Garcia, of Ringgold; and one brother, Mark E. Bankston, Ringgold.

MRS. CLEO TATE

Mrs. Cleo Eisenmann Tate, 76, of 416 East Franklin St. Anderson, S.C., died Wednesday, July 5, 1978, at the Miramar Lodge Nursing Home in Pass Christian.

The body will be sent from Riemann Funeral Home in Gulfport to the Sullivan-King Funeral Home in Anderson for funeral services and burial in the Old Silver Brook Cemetery.

Among her survivors is a daughter, Mrs. Dorothy McMullen of Pass Christian.

Legal Notices

INVITATION TO BID

Sealed proposals for renovation work to Hancock North Central School, will be received by the Hancock County School Board. Said proposals will be received in the office of the Superintendent, 126 Court St., Bay St. Louis, Mississippi, until 9:00 a.m., Monday, July 24, 1978.

Any bid received after the closing time will be returned unopened.

Duly qualified General Contractors may secure from the office of John Mykolyk & Associates, Architects & Associated Engineers, 115 East Beach, Pass Christian, complete sets of Contract Documents upon deposit of \$30.00 (Thirty Dollars) for each set obtained.

The full deposit will be refunded on the first set of Documents to General Contractors who submit a bona fide bid. All other sets the refund amount shall be 50 percent (fifty percent). Said refunds will be made only for complete Documents in good condition, returned within ten (10) days after bid opening.

No bid may be withdrawn for at least thirty (30) days after the actual closing time for receipts of bids. Each proposal must be accompanied by a certified check or bid bond, certified or issued by a Bank or Bonding Company in the State of Mississippi in an amount equal to at least 5 percent (5 percent) of the amount of the bid, and made payable without condition, to the Board, as a guarantee that the bidder, if awarded the Contract will promptly execute the Contract Documents. A 100 percent (100 percent) performance bond shall be required.

Contractors proposing to perform work amounting to \$25,000.00 or more, must hold current valid Contractor's Certificate of Responsibility and Contractor's License. Certificate number and license number must be indicated on the exterior of the sealed bid envelope before it can be opened.

The School Board reserves the right to reject any and/or all bids and to waive any informalities incident thereto.

Bid documents are on file in the Superintendent's office for public review.

Health and Safety

From the American Medical Association

Post-nasal drip is a common term for a common condition which annoys many persons.

Quite often its effects are encountered during the night or early in the morning. A sleeper moves and changes position, coughs, and spits up mucus.

Some of the causes of post-nasal drip are allergic reactions, irritants in the air, smoking, changes in barometric pressure, chemical or physical damage to the membranes, gross deformities of the airways, and individual responses to such conditions as climate, altitude and humidity. Post-nasal drip often is closely related to sinusitis, the American Medical Association points out.

At the root of the problem are abnormal secretions in the upper throat, the nasopharynx. One of the functions of the nasopharynx is to warm and moisten air drawn into the lungs through the nose and to catch dust and bacteria on its moist surfaces.

To maintain moisture, the nasal

passageways normally produce rather copious quantities of two types of secretions—a watery, or serous, secretion, and a thicker mucus. A certain amount of these secretions lingers in the nasopharynx, but when an over supply accumulates there, particularly of mucus, the result is post-nasal drip.

Modern drugs can restore normal function in a high percentage of cases, and severe deformities of the airways can be corrected surgically. Gargling is not effective against post-nasal drip or the offensive breath which frequently accompanies it. Gargling reaches only the front two-thirds of the oral cavity, and the secretions causing the trouble are the rear one-third.

Sometimes coughing fails to expel the accumulation. Breathing can then be made easier by using certain medicines.

Finally, a sizeable number of the millions of cases of post-nasal drip among Americans would clear up if the sufferer would just stop smoking.

Save The Bay leadership shifts to local residents

By RICH ADAMS

Five Bay-Waveland and Pass Christian area residents have been elected to the board of directors of Save The Bay, Inc., in an effort to centralize leadership of the environmental group in the South Mississippi area.

Those five, along with three other South Mississippi residents newly elected to the board—one each from Long Beach, Picayune, and Ocean Springs—will head a monthly membership meeting of the group at 7:30 p.m. Tuesday at the Pass Christian Library on Hiern Avenue.

In addition, the board of directors is composed of six New Orleans area residents, two of whom maintain second homes in Waveland, one in Bay St. Louis, another in Pass Christian, and two more in Ocean Springs.

"This move should improve communications with most of our supporters, and make us more efficient in our efforts to protect the Gulf Coast area from haphazard heavy industrial development," said Cyril Lann, past president of the ecology group.

New officers of Save The Bay are Allen Lowrie of Picayune, chairman

and president of the board; Beverly Poolson of Bay St. Louis, vice president; Catherine Anderson of Long Beach, secretary; Dennis Raymond of Bay St. Louis, assistant secretary; and Robert N. Andry of New Orleans and Pass Christian, treasurer.

Other directors are Mrs. Robb Sanford, Vivian Anderson-Jenson, and Erna Peters, all of Pass Christian; Sally K. Evans, Bay St. Louis; Peggy Wilson and Marcia Conery, both of New Orleans and Waveland; Ms. Cathy Kanady, Ocean Springs; and Mr. and Mrs. Cyril R. C. Laan of Metairie and Ocean Springs.

The new directors elected last month will serve one year terms on the board, according to Lowrie.

Save The Bay continues to oppose aspects of DuPont's DeLisle plant construction in several lawsuits.

Most recently, the group was denied an attempted appeal of a December ruling by the permit board of the Mississippi Air and Water Pollution Control Commission.

Save The Bay failed to file the appeal briefs on time, thus losing the opportunity to continue its court fight against the permit board's affirmation of a waste water discharge permit issued to DuPont in 1975.

"We're having a hard time in court," said Lowrie. "We're going to keep on having a hard time in court, but you can bet your bottom dollar that we're going to keep on trying until we succeed," he added.

"We started out with a handful of people a few years ago, and now we're nearing 2,000 members in Save The Bay," he continued.

"For a strictly volunteer organization, I would say we're magnificently successful," he said.

On basic principles of the group, Lowrie said, "The deep South is not in the forefront of any ecological actions. Our job is that of a conscience raising on Lowrie says that too many people miss the 'human factor' involved in big industries.

"Most industries coming into a town offer a 'free lunch,' but there is no such thing," he feels.

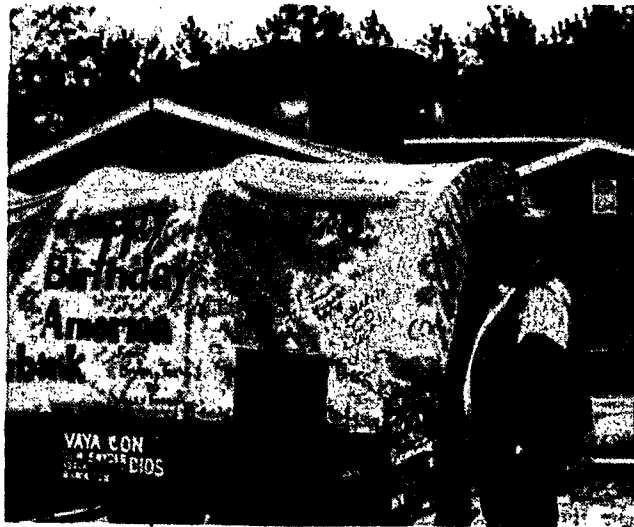

"The industries such as DuPont don't pay their own way. Taxes go up for the people."

"We the people pay 75 percent of taxes through income taxes, and the rest comes through private enterprise," he reported.

"The economic system only helps the middle class, not the poor people," he continued. "It's a never-ending cycle."

Industry said a few years ago the poor people would be helped through the 'trickle down' theory, where enough money would trickle down from big industry to support them in the way of jobs, but the 'trickle down' idea isn't working," he feels.

"If industry is so great, then why are people pouring out of the big cities where industry is located into suburbs?" he added.

MOVIN' ON—Jay Eubank stopped off in Waveland last week in his horse drawn covered wagon which he is driving to Boston to reenact the Boston Tea Party. He was told he had lung cancer and had only a few months to live in 1975, but is beating the disease today. "I only live for today. I never see a tomorrow," he says. He has travelled more than 8,000 miles since 1976 in his wagon, participating in the Bicentennial Wagon Train and more recently promoting California's Proposition 13 and similar tax revolt measures. (Staff photo-Rich Adams)

Boston bound...

CONTINUED FROM PAGE 1

"Taxes are too high, and the American people are experiencing taxation without representation again," he feels.

He is repeating the Tea Party in Boston to stress those viewpoints.

"I want people to send me teabags," he says. "I don't care if they're used or new."

"But if you're happy with the tax situation in America, don't bother to send any," he added.

"Y'all are invited to Boston to have a cup of the tea," he offered, adding, "bring your own sugar."

Anyone wanting to donate teabags can send them with his name and city on the outside of the package in care of the Hugo Favre residence, Rt. 3, Box 289, Bay St. Louis.

Eubank survives on a small monthly Social Security check, and the generosity of food stores, hotels and "friendly folks I meet along the road".

"Money doesn't mean much to me," he says. "I've never seen a dollar smile."

He gets his biggest thrill from children and elderly people, he says, because they smile the most.

"When a child hugs you, you know he means it," he said.

"I always wanted a covered wagon," Eubank said. "My daddy took me to a Hoot Gibson western movie when I was ten, and I told him then I wanted to travel across the county in a covered wagon."

Eubank was stricken with a heart attack in 1967 and gave up his trade as a meat cutter.

In 1975 he was told he had cancer and would live only a few months.

"I told the doctors I'd make liars out of them, and I did. I only live for today. I don't worry about tomorrow. I've never seen a tomorrow," he philosophizes.

He lost his wife and daughter in an automobile accident in 1969, and claims his pony Hobo is all the family he has.

After Hobo's mother died when he was three months old, Eubank's daughter raised the animal, feeding it goat's milk with a baby bottle.

In California, Eubank said he was looking for a wife, and a story of his search was carried in the local newspaper.

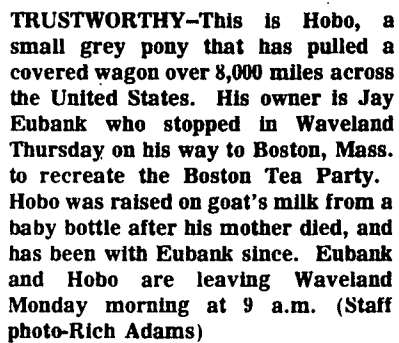

When he got to Tucson, Ariz., the newspaper there ran a free "wife wanted" classified ad for him.

"A jeweler in Tucson even gave me a free wedding ring. It's a size six-and-a-half, and I'm looking for a girl to fit in it—like a Cinderella story," he said.

He was a wagon master in the Bicentennial Wagon Train of 1976, travelling from Texas to Valley Forge in three weeks.

He plans to run as an independent candidate in the 1980 presidential election on a platform of tax reform.

"I may not win, but at least I'll know I

TRUSTWORTHY—This is Hobo, a small grey pony that has pulled a covered wagon over 8,000 miles across the United States. His owner is Jay Eubank who stopped in Waveland Thursday on his way to Boston, Mass. To recreate the Boston Tea Party. Hobo was raised on goat's milk from a baby bottle after his mother died, and has been with Eubank since. Eubank and Hobo are leaving Waveland Monday morning at 9 a.m. (Staff photo-Rich Adams)

tried," he said.

Included in his platform for the presidency is the reduction of income tax to 12 percent, elimination of loopholes for the wealthy, abolition of foreign aid, and a 50 percent reduction of the president's salary.

"I believe that any major issue such as the Panama Canal should be put to a popular vote," he feels.

"The majority rules," he added, "but it's the majority of the Senate and Congress, not the people."

Eubank plans to travel to Canada in his wagon after Boston, and claims that Mary Tyler Moore Productions wants to do a pilot film on his wagoning.

Eubank was presented an honorary citizenship of Bay St. Louis Friday by Bay Mayor Larry Bennett and an honorary citizen of Waveland yesterday by Mayor John Longo.

Eubank is leaving Waveland tomorrow at 9 a.m., and Bay Police Chief Douglas Williams will provide him with a police escort from the Bay-Waveland city limits on US-90 to the foot of the Bay automobile bridge.

Repair delays...

CONTINUED FROM PAGE 1

Mayor Larry Bennett stated Friday, "We don't know what is causing all the sewer breaks."

"My big concern is for the gas lines in Bay St. Louis—if one of them would blow in one of these cave-ins, some people could be hurt," commented Bennett.

Bay Council opened its meeting Wednesday night by re-electing James Triffley president and Peter Benvenutti vice-president.

After a lengthy discussion and by a 4-1 vote, the engineering firm of Broadway and Seal Inc., Picayune, was authorized to make an application to Farmers Home Administration for a loan to expand the city's sewer, water and drainage system.

Don Murray, representative of Broadway and Seal, said his company would file the application at no charge to the city.

Should the city receive the funds, the firm would take its chances of getting the engineering contracts.

Councilman Fred Wagner voted against the plan, and stating "A public body should not be asking nor should a professional engineer be rendering a service without getting paid for it."

Council president James Triffley commented, "All the contracts will be closely scrutinized. As far as I am concerned, I want to get this firm to help the Mayor—we have to get something going."

Councilman Wagner complimented Bennett on his efforts in getting the beach front cleaned up.

Mention was made of Hancock County Supervisor James Travira getting \$4,000 for the resurfacing of Dunbar Avenue from Carroll Avenue to Main Street.

Dunbar Avenue from Beach Boulevard to Carroll Avenue was recently resurfaced by Beat 3 Supervisor Oscar Peterson and the City.

Joe Brown, engineer, was contacted by Bennett on getting some help on street repairs. Brown appeared before the Council and was authorized to conduct a physical survey, if practical, of present street conditions and submit a proposal establishing priorities for street repair work.

Brown told the Council, "We could give you a report on what we think it would cost and the immediacy of some of the needs."

"Apparently some flaws exist," he noted.

Joe Brown III was with his father when he made his proposal to the Council. Brown Engineers are also to explore the possibility of receiving federal funding for street repairs.

street repairs. In other matters, the Council:

—Accepted a new ordinance on the installation of street culverts.

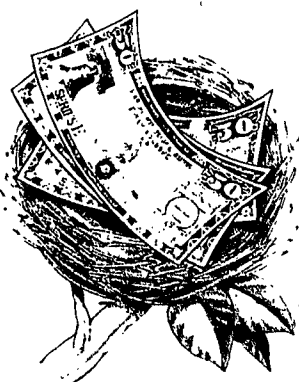

—Accepted the plat, approved by the Zoning and Planning Commission to the OLG subdivision.

—Granted an expense allowance of \$50 to the city clerk for car expenses.

—Rejected the payment of some docket items.

The Council scheduled a recess meeting tomorrow at 5 p.m.

Letters to the editor

Mobile Medic responds

Dear Sirs:

I would like to clarify a statement made in a letter to the Editor published in the July 2, 1978, edition of the Sea Coast Echo.

In a letter written by Mr. Walter L. (Buddy) Stone, III, he stated that a Mobile Medic Ambulance from Gulfport arrived on the scene of the accident "20 minutes or so later."

We were called to the accident by the Bay St. Louis Police Department at 9:35 a.m.

Because of the seriousness of the accident, we dispatched our Hancock County unit, which is stationed in Hancock County 24 hours a day, seven days a week, and another unit from Harrison County.

The first unit arrived on the scene at 9:44 a.m. and the second unit at 9:45 a.m.

The response time was eight minutes. I trust this will clear any erroneous impression left in the minds of your readers.

Sincerely,
John K. Rester
President

Excuse me, Mobile Medic

Dear Sirs:

I would like to say that in my letter printed on Sunday, July 2, 1978, that in no way was I trying to downgrade Mobile Medic.

I found out that it did not take 20 minutes for them to show up, but only nine minutes from the time of the call.

But, when you're on the scene of an accident, you often want things to go faster than they do, and some times they often go slower.

That was one of the days when things went slower.

Not only do I think that more people of Hancock County should use Mobile Medic, but I also feel that we should have more rescue units in our county.

At the present time we only have one. Walter L. Stone, Volunteer Fireman

Townsend...

CONTINUED FROM PAGE 1

send has found herself at odds with her fellow board members.

She offered the lone dissenting vote in the recent board approval of a new, three-year contract for McCullough.

Ms. Townsend said she feels the superintendent should work under a one-year contract just as the other administrators and teachers.

She successfully overcame a move last October to oust her from the board when she moved from the Waveland jurisdiction from which she was elected to a home on Beach Boulevard in Bay St. Louis.

At that time, she maintained her right to her school board post was secure in as much as she still owned a business in Waveland and intended to move back into that city later.

The Townsends have two children, Gerald Jr., a 1978 graduate of Bay High, and Cathy who will be a high school senior in August.

The children have reportedly already joined their father in Washington State. Ms. Townsend's term expires in March, 1980.

Under Section 37-7-203 of the Mississippi Code of 1972, the governing body of the municipality in which the school district is located—being in this case the Bay St. Louis City Council—is empowered to appoint a board member to fill a vacancy such as the one being left by Ms. Townsend.

That appointee will serve out the unexpired term of the resigning member, at which time an election to fill the post must be called by the school board.

Jourdan River Rally includes canoe races, softball tourney

The Kiln Jaycees, in association with the Pearl River Basin Development District are planning three days of activities at McLeod Park in connection with the Jourdan River Rally canoe races next Sunday, July 16.

Also sponsoring the 1 p.m. canoe races, the fifth event in the Pearl River Boatway Canoe Racing Series, is the Outward Bound Shop of Hattiesburg.

Besides the canoe race, Chairman M. J. Necaise has planned a softball tournament and egg-throwing contest. "The softball tournament will begin Friday and will finish up on Sunday," explained Necaise.

Twenty trophies and 42 ribbons will be awarded to the ten place finishers in aluminum, fiberglass and open classes. Two additional trophies will be awarded to the best time by entrants aged 12-16 years.

The race course is approximately 8 miles, beginning at the Low Water Bridge off of Texas Flat Road on Catahoula Creek and finishing

at McLeod Park.

Entry fee is \$5 per person with a minimum age of 12 years. Entrants 18 years old or under must sign a release or have a notarized release signed by a parent or guardian.

McLeod Water Park, located on Texas Flat Road near Kiln, will be the center of activities and canoeists must report to the park first in order to be certified before being led to the starting point.

The park, which was constructed by the Pearl River Basin Development District and the Hancock County Board of Supervisors, contains picnicking and boating facilities, a baseball field, comfort stations, and a nature trail.

Necaise said food and drink concession service will be available over the weekend. Racers may sign up at McLeod Park on race day. For information and entry blanks, phone the Kiln Jaycees at 255-7642 or 255-1881; the Outward Bound Shop at 532-1741, or the Pearl River Basin Development District at 354-6301.

FULL GOSPEL CHARISMATIC PRAYER MEETINGS

Lakeshore Full Gospel Church
Location: Lakeshore Rd., Old Methodist Church.
Tuesday & Saturday
7:30 P.M.
Watch for signs.
EVERYONE INVITED
COME EXPECTING A MIRACLE
Pat L. Bordelon D.D.

Have you ever thought the things you heard about someone lately just might not be true? That's what I want to talk to you about - the truth, and that's Jesus.

I have walked life's road long enough to know we cannot change ourselves much less anyone else. But Jesus can and will if we let Him. Sometimes we find we try to mold others into what we would have them be. We find ourselves pointing them to the preacher, the elder, church leaders, when we should point them to JESUS. Matt. 5:48 teaches us to be perfect as the Father in Heaven is Perfect.

Jesus is the one we should be taking on, for He is the only Door to Heaven. John 10:1.

Sure you may have heard that Jesus isn't true, real or doesn't love or want you. But the Devil always did lie, in fact, he is the Father of all lies!

Jesus is true, real and He does Love and want YOU! Why not let Him become REAL to you, in your life. It is an absolute truth that all Kings and Queens that have ever reigned, all parliaments, and Congresses that have ever sat, and all the judges who have ever judged and all the statesmen who have ever spoken all them put together have not affected the life of mankind like this MAN called JESUS. His judgements are true. His love is real. His bronze finger points towards us through the pages of God's Word in warning us to go the way of the CROSS. Hear through words that sound as soft as the sound of music. Come Unto Me.

DODGE BALL—Lawrence Burton, at bat for Edmund Fahey's Astros, dodges low pitch which catcher Rodney Poyadou deftly gloves. Poyadou, who later took over as pitcher, pounded out a home run in the fourth inning with Mike Haverty on base as Tigers defeated the Astros, 3-3, for first place in Waveland Little League Thursday at Bourgeois Field. (Staff photo - Sharon Walls)

BABE RUTH BASEBALL

By Mark McCarthy

Coast Electric struck for three unearned runs in the seventh inning to overcome a two-run deficit and win their third game in a row, defeating Dixie Realty 7-6 Sunday.

Dixie had just taken the lead with their own three-run seventh, before Coast came from behind to give reliever Bobby Richardson, 3-5, the victory. Kenny Benigno had three singles and Joe Hubbell added two to lead the attack. Dennis Manieri was the loser for Dixie, taking over for starter Chuck Goodwin after two innings. Jeff Kergosien and Ron Lusich both knocked out two hits apiece.

Each team committed six errors in a game that saw only four earned runs scored. American Legion exploded for eight runs in the third inning and eased their way to a 12-2 win over Rotary Club in a five-inning contest.

David Strong got the win, fanning six and walking three. Ricky Ladner connected for two hits, while Melvin Barnes rapped a triple to pace the Legion seven-hit attack. Perre Cabell was charged with his first loss of the season against four wins, but allowed

only one earned run as he watched his team commit ten errors. Bruce Cabell and Joe Gex each had a hit and an RBI for Rotary, as the team fell one game behind pace-setting American Legion.

WAVELAND LITTLE LEAGUE

The Waveland Little League announced their minor and major all star teams this week with the leading pitcher of the League, Rodney Poyadou, heading the roster for the 11-12 year-olds.

Dean Di Salvo, Allen James, Byron Thomas, Mike Haverty, Gary Jackson, Mark LeMay, John Henry, Randy Hoth, Thomas Antoine, Billy Davis, Gifford Pace, Larry Giveans, Jimmy Necaise, and alternate Charles Thomas join Poyadou on the major All Stars for 11-12 year-olds.

The minor All Stars are Blaire Gates, Calvin Thomas, Adam LeMay, Sammy

EDGING TOWARD SECOND—Pier Sammy Warman

Tigers downed the Astros, 3-3, for undisputed first place in Waveland Little League.

Men's League softball

Top-ranked Miller's take lone defeat from Afro Kings

By SHARON WALLS
Miller's Sporting Goods, way out front in the Men's City Softball League, took their first defeat Thursday as the Afro Lounge Kings rallied for seven runs in the bottom of the fifth to edge out the leaders, 10-9, at Commagere Field.

Miller's built up an early two run lead to nine with a seven run second inning. The

burst was powered by home-run from Mike Farve followed in the batting order by another from Neal Farve. The team finished out the inning, 9-0, in front of the Kings, but they were held to no score in the last five sets.

Waiting until the bottom of the third to get on the scoreboard, the Afro Kings

ran up three in a row, but were still down by six going into the bottom of the fifth. The King's defensive shut out Miller's to make the score 9-3, as the Afro Lounge took the bat.

The Kings backed up their hitting with the speed of their runners as they took advantage of Miller's errors to score. Don Smith led off the hitting, with a single. Fabian Collins took over as a runner for Smith, scoring on a double by Gerrard Lymuel.

Collins had barely crossed the plate for Smith when he picked up a bat and stepped into the batting box. Howard Weaver, Collins, and Robert Smith came home on a Louis David base-hit. David reached third on errors and one play later scored for the seventh run to put the Kings out front, 10-9.

Miller's batters went down with no runs scored in the top of the sixth, including a high-arching power hit by Gary Blaize which put the fielder's back to the fence for the catch. The Kings were shut-out to finish up the sixth inning.

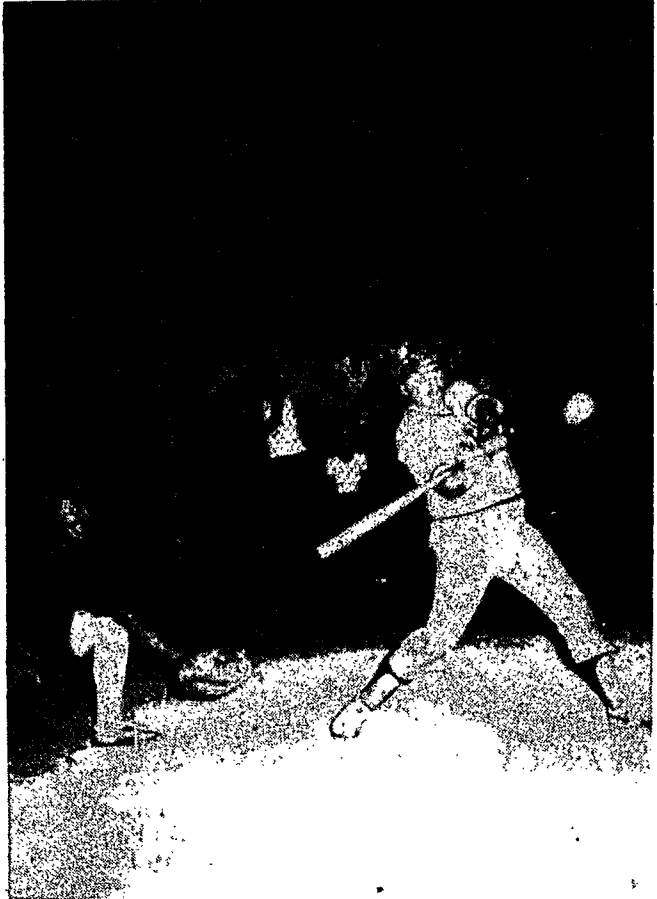

Miller's got two men on base but flew out before they could score in the final set. The Kings are the only team to defeat Miller's in the second half of the League's season, although Miller's is recorded as forfeiting one game.

The Afro Kings move into a three-way tie for third place with the Sluggers and the Over the Hill Gang whose upset win over second placed Red Machine Wednesday night put them in contention. The three teams have 7-7 records.

Afro Kings meet the Over the Hill Gang while the Sluggers face the Red Machine Monday in the last games of the season to decide the standings.

Men's League Standings (July 6)

	G	W	L
Miller's	14	12	2
Red Machine	14	9	5
Over the Hill	14	7	7
Sluggers	14	7	7
Afro Kings	14	7	7
Taconi's	14	0	14

EXTRA EFFORT put this ball over the fence for Neil Farve. Farve, playing for Miller's Sporting Goods, hit a homerun, the twin of one pounded out by Mike Farve minutes before, in the second inning against the Afro Kings Thursday. (Staff photo - Sharon Walls)

YOUR BEST SUMMER SETTING FOR SAVING

Southeast Mississippi is known for its hot, humid summers. Air conditioners bring comfort — but they also bring higher electric service bills. In fact, Mississippi Power's typical residential customer uses twice as many kilowatt-hours of electricity in the summer months as in April. We want to help you get the greatest possible value from your electric service dollar. These air conditioning suggestions may help.

THERMOSTAT SETTING

A few degrees will make a big difference! For greater efficiency and less cost during the summer, set the thermostat at the highest comfortable temperature, usually about 78 degrees or higher. As shown by the chart at right, the difference between maintaining 78 degrees and 72 degrees can increase energy consumption as much as 63 percent.

FILTER MAINTENANCE

Clean or change the air conditioning filter at least once a month — more frequently if necessary. A dirty or clogged filter will make your air conditioning unit work harder and use more electricity. A dirty filter may lead to serious and expensive repairs.

GENERAL OPERATION

If your air conditioner has been shut off during a cool night, give it an early start the next morning before a new day's heat fills the house. But remember, when starting the unit, don't set the thermostat on a colder-than-normal setting. This will only make the unit run longer, not cool any faster.

FREE PASSAGE OF AIR

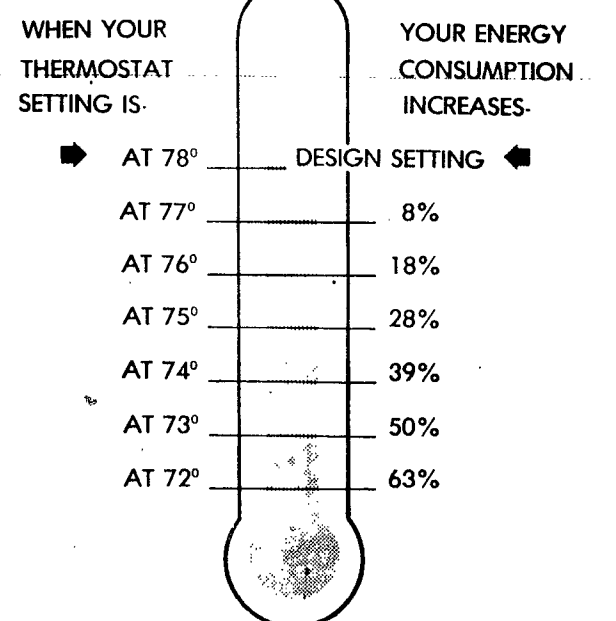

Don't block the air flow the equipment needs. Keep shrubbery trimmed around the air conditioning equipment. Inside, make certain that you keep window drapes and furniture out of air flow path.

ENERGY EFFICIENCY RATIO

If you replace or add a cooling unit, select one with a high energy efficiency ratio (EER). The higher the EER number, the more efficient the cooling unit. Generally, an EER number of 7.5 or better is considered good.

EQUIPMENT INSPECTION

It's a good idea to have your air conditioning equipment inspected by a qualified serviceman at the beginning of the cooling season. You could prevent an expensive breakdown and get better efficiency and lower operating costs.

You'll find many other ideas about the wise use of electricity in our newly-revised "Energy Management Handbook". Pick up a free copy at any Mississippi Power Company office, or we'll be glad to mail you a copy. Send request to: Mississippi Power Company, Public Information Department, Box 4079, Gulfport, Ms 39501.

We pick the best. So you can, too.

County Agent's Notes

by John Smith

WATER YOUR GARDEN

Your garden needs a good water supply to produce the best vegetables. Vegetables need about one inch of water per week during the growing season. Gardens in sandy soils need up to two inches of water per week in the summer.

When watering your garden, apply enough water to wet the top three to five inches of soil. Frequent, light waterings cause shallow rooting, susceptibility to drought damage, and make plants easily blown over.

CONTROLLED GRAZING

You can get more grazing from pastures of summer annuals by using controlled grazing. You should not graze

temporary summer grazing crops, such as sorghum, sudan, millet and sudangrasses, until they reach a height of 20 to 30 inches.

Rotate cattle to other pastures when the grass has been grazed to a height of 8 to 10 inches. It's especially important to pull cattle off during the first grazing later in the summer.

DON'T POISON CATTLE

Many cattle are poisoned by herbicides containing arsenic each year in Mississippi. The herbicide MSMA, which contains arsenic, is a particular threat to livestock.

MSMA tastes good to cattle and may be especially attractive to animals not on a good mineral supplement feed.

You can avoid loss of animals to herbicide poisoning by following label directions for proper use and disposal of herbicides and containers.

KEEP GARDEN FULL

The best way to keep your garden weed-free is to have a crop growing in every row. When a crop has been harvested, plow up the row and plant another crop. Idle rows become a haven for weeds when they could be producing vegetables.

You can keep long season crops, such as tomatoes, free of weeds by using a heavy mulch of pine straw, seed-free hay or similar material. Mulch will also reduce watering and keep fruit off the ground.

KITCHEN & GARDEN NOTEBOOK

MAKE QUICK AND EASY JELLY FROM CANNED OR FROZEN FRUIT JUICE

Homemade jelly is a wonderful treat that needs no time in the kitchen to make, according to the home economists at the Ball Corporation. In fact, it can even be

made without fresh fruit—a good thing to keep in mind during those times of the year when fruit is not abundant. Unsweetened canned or frozen

fruit juices are excellent for making jelly. Just remember that if you use commercially canned or frozen juices, commercial pectin will be needed. Try this simple and delicious recipe for grape jelly developed in the Ball kitchens.

GRAPE JELLY

6-1/2 cups sugar
2-1/2 cups water
1 bottle liquid pectin
3 6-ounce cans (2-1/4 cups) frozen concentrated grape juice

Stir the sugar into the water. Place on high heat and, stirring constantly, bring quickly to a full rolling boil that cannot be stirred down. Boil hard for 1 minute. Remove from heat. Stir in the pectin. Add thawed concentrated grape juice and mix well. Pour immediately into hot containers and seal. Yield: about 8-9 eight-ounce glasses.

MISSISSIPPI WEEKLY WEATHER & CROP REPORT

WEATHER SUMMARY:

(National Weather Service): The week was hot and dry over most of Mississippi with 100 degree readings observed for the first time this season.

Most high temperatures were in the mid and upper 90s.

However, on June 29 the mercury hit 100 degrees at Belzoni, Laurel, Vicksburg, Meridian, Yazoo City and Cleveland. Most lows were in the 70s with the lowest reading - 65 - occurring at Holly Springs on June 24. Average temperatures for the week were as much as five degrees above normal.

Weekly rainfall totals ranged from zero at many locations to 2.29 inches at Biloxi. This was the result of afternoon and evening thundershowers being widely scattered but most numerous in the southern third of the state.

One hundred degree plus readings were once again noted in several areas over the weekend with a maximum of 101 recorded at Laurel. Significant rainfall was scarce as widely scattered thundershowers developed in the afternoon heat. Most of the areas receiving moisture

reported around a tenth of an inch, however Stoneville collected 0.85.

CROP SUMMARY: Hot, clear weather allowed farmers to clean up crops and many also completed soybean planting. Although cotton insects were generally light, counts were beginning to increase in some areas. A general rain would improve crop conditions in most areas.

Soil moisture supplies were adequate to short in the Delta and in the northern areas and short elsewhere. An average of 6.1 days was suitable for fieldwork compared to 4.9 days last week and 6.0 days for the same week last year.

Soybean planting was 95 percent complete compared to 92 percent last year and the average of 89 percent. About 83 percent of the acreage was up to a stand compared to 80 percent last year. The crop was in good condition.

The cotton acreage was 76 percent squared compared to 89 percent last year and the average of 57 percent. The acreage was 10 percent blooming compared to 63 percent last year and about one percent was setting bolls compared to 25 percent last

year and the average of 16 percent. The crop was in good to fair condition.

The rice acreage was in good to fair condition. Corn was 63 percent silked compared to 69 percent last year and the average of 38 percent. About 22 percent of the acreage was in the dough stage compared to 30 percent last year. The crop was in good condition.

Winter wheat was 96 percent harvested compared to the average of 98 percent.

The oats acreage was 96 percent harvested, equal to the average.

Hay crops were 44 percent harvested compared to 47 percent last year and the average of 40 percent.

Sorghums were 89 percent planted compared to 85 percent last year and the average of 87 percent.

Sweetpotatoes were 97 percent planted compared to 93 percent last year and the average of 90 percent.

Peaches were 29 percent harvested compared to 57 percent last year and the average of 43 percent. The crop was in fair to good condition.

Irish potatoes were 84 percent harvested, the same as last year, compared to the average of 79 percent.

Cucumbers were 59 percent harvested compared to 63 percent last year.

Watermelons were 6 percent harvested. Pastures were in good condition.

COMMENTS

TUNICA CO. "Crop conditions have improved for the past two weeks. Rain is needed, particularly on late planted soybeans."

CALHOUN CO. "Farmers had a good week to plant and cultivate crops. Crops are beginning to grow."

YAZOO CO. "Parts of the county needing rain. Hot, dry weather has made many cotton crops look better. Late planted soybeans are suffering, however. Silage corn will start to be harvested next week. Worm control in cotton will begin in about two weeks in most cases."

NOXUBEE CO. "Hot, humid weather all week. Farmers in high gear spraying herbicides and cultivating soybeans."

LAUDERDALE CO. "Need rain - crops and pastures are beginning to suffer from lack of moisture."

State Weather Projection

Mississippi's July rainfall will range from near median in the north to above median in the south, according to the National Weather Service outlook distributed by the Mississippi Cooperative Extension Service.

Temperatures will average near normal except along the coast, where above normal readings are expected. North Mississippi's rainfall, mostly scattered afternoon thundershowers, will average between four and five inches.

In south Mississippi, readings will be between 4.5 inches in Jackson to more than eight inches along the coast. Many southern areas will record above normal amounts.

Weather experts say soybeans could use a rain, but they expect most areas to receive showers before significant damage occurs. Extension Cotton Specialist Dr. George Mullendore says

cotton is in good shape and can grow without a good rain until fruiting begins.

Agrometeorologists at the Environmental Studies Service Center in Stoneville, who prepare the forecasts, predict most areas will have sufficient moisture. Showers will interrupt insect spraying occasionally.

Rice should progress normally for July. Early morning hours will be the best time to apply phenoxy herbicides, say agrometeorologists. Hay and pasture growth should increase as soil moisture increases. Some south Mississippi cattlemen may have trouble baling hay without shower damage.

Poultrymen can expect moderate to severe heat stress; very severe heat stress is forecast for the first week in July. Managers are urged to keep up with the latest forecasts and advisories.

Roman Cuevas family holds reunion today

Members of the Roman C. Cuevas family will gather on the Gumbo Festival grounds in Nacaise Crossing for an all-day reunion beginning at 10:30 a.m. today, Sunday, July 9.

Family musicians are asked to bring their instruments to the event which is expected to run into the early evening hours. "All of the families of this reunion are a part of it - you all come and we will get to know each other better," said Franklin Cuevas, chairman.

He will deliver a history of the family and distribute copies of the deed to 10 acres on Cat Island once owned by

Roman Cuevas and which "still belong to all of us," Cuevas said.

Participants are asked to bring picnic lunches, chairs and fans.

Descendants of the following families are invited:

Roman C. Cuevas Jr., Alexander Cuevas, Christopher Cuevas, Luke M. Cuevas (Martimar), Sebastian Cuevas, Peere Cuevas, Nohra Cuevas, Louisa Cuevas Nacaise, Laura Cuevas Ladner, Armentine Cuevas Ladner, Jeannie Cuevas Nollet, Lella Cuevas Nollet, Anarlesia Cuevas Peterson and Mary Ladner.

Pest management advice offered by specialists

Face flies have not been found in significant numbers this year, but farmers should maintain fly control programs and not become lax, says Dr. James Jarratt, Mississippi Cooperative Extension Service pest management specialist.

"The face fly is usually a major pest in the northern two-thirds of the state," he explains, "and it's hard to control when populations are high."

The hot, dry weather of last summer evidently weakened the adult population, so that very few flies were available to enter overwintering sites.

Spot checks on herds throughout the state reveal extremely low numbers of adult face flies on cattle.

But, this doesn't mean face flies won't be a problem this year, he cautions. If we continue to get the moisture we're getting now with the moderate temperatures, face flies could be a problem in the late season, he adds.

The fly is a nuisance breeder, but does not pupate in or under manure. The larvae crawl some distance from the

manure to a suitable moisture zone for pupation.

This habit worked against the fly during the hot, dry weather of last summer. Larvae remained exposed for longer periods and larval mortality was high because of dryness and predation from insects like ground beetles and ants.

Feeding habits of the fly irritate cattle while they feed and also irritate eye membranes of the animals. The incidence of pink eye increases with population growth of the face fly, says Dr. Jarratt, who urges cattlemen to keep a close check on their animals.

"These pests can be suppressed with several insecticides applied as dusts, sprays or on backrubbers. Place dust bags or backrubbers where the animals are forced to use the devices at least once daily," he advises.

For further information on control programs for face flies, contact your county agent for publications on livestock parasite control.

CROP SUMMARY

Cotton: Acreage planted to cotton in 1978, as of June 1, is estimated at 1,220,000 acres, 12 percent below the 1,360,000 acres planted in 1977, according to the Mississippi Crop and Livestock Reporting Service. It is forecast that 1,180,000 acres will be harvested compared to 1,360,000 acres in 1977.

Soybeans: Soybean planted acreage in 1978 is estimated at 4,000,000 acres, seven percent above the previous record high of 3,750,000 acres planted in 1977. This is unchanged from the April 1 forecast. It is forecast that 3,900,000 acres will be harvested for beans, compared with 3,650,000 acres in 1977.

Rice: As of June 1, it is estimated that rice growers seeded 200,000 acres this year, 79 percent above the 112,000 acres planted in 1977. Acreage for harvest is forecast at 196,000 acres, compared with 111,000 acres last year.

Corn: Acreage of corn planted for all purposes is estimated at 190,000 acres

This is 24 percent below the 250,000 acres planted in 1977. Acreage to be harvested for grain is forecast at 135,000 acres, compared with 160,000 acres in 1977.

Sorghum: Sorghum planted for all purposes in 1978 is estimated at 50,000 acres, 10,000 acres below the 60,000 acres planted in 1977. Acreage to be harvested for grain is forecast at 20,000 acres, compared with 24,000 acres in 1977.

Peanuts: Acreage planted to peanuts is estimated at 7,000 acres, 500 acres below 1977. It is expected that approximately 6,800 acres will be harvested, compared with 7,000 acres a year ago.

Sweetpotatoes: Acreage planted and to be planted is estimated at 9,500 acres, 500 above 1977.

Wheat: Harvesting of 1978 wheat crop is virtually complete and the acreage harvested is estimated at 6,000 acres, 20,000 acres below 1977. Acreage seeded is estimated at 100,000

CLOTHING PROGRAMS

Tuesday, July 11, 1978 at 10 a.m. in the Extension Auditorium, 405 Nacaise Ave., Bay St. Louis. I will be showing you ways to recycle your wardrobe. Make new clothes out of old clothes.

On July 25, 1978, I will begin the first of a four part sewing course. These classes are designed for women who already sew a little. If you want to attend all four lessons, July 25, August 4, August 8, and August 11, please call 467-6456 and give us your name. I will only take 40 people in this free educational program. The classes will be lecture-demonstration format.

SHIRRED FABRIC HINTS

Shirred fabric is available in skirt and dress lengths, short or long. To make a garment it requires only one seam which joins the cut-edge of fabric to make the garment. For correct size, skirt - measure waistline and subtract 3 inches; dress - measure bustline and subtract 6 inches.

If you want trimming apply it before seaming the fabric. Decide on placement. Be sure to match thread to trimming. Do not stretch trimming while sewing. After application, seam fabric, lining up the trim.

COUNTY FAIR

It is time to get your Homemaking Exhibits ready for the Fair set for September 25-30. Come by the office, 405 Nacaise Avenue, Bay St. Louis and pick up a Fair Book listing the 1978 Exhibit. The rules and regulations as well as possible exhibits are published in the book.

QUICK & COOL

In hot weather it's time to think of salads, casserole dishes and make-ahead foods that are easy to prepare and serve as well as refreshing to eat. Here are two I know you will like.

CHEESE CORN BREAD WITH SHRIMP TOMATO SAUCE

1 pkg. (10 oz.) corn bread mix
1/2 cup shredded process American cheese
1-3/4 cup chopped onion
2 tablespoons butter
3 tablespoons flour
1/2 teaspoon salt

1/2 teaspoon sugar
Dash of pepper
1 cup milk
1 can (1 lb.) tomatoes
1 teaspoon Worcestershire sauce

2 cans (4 1/2 oz. each) shrimp, rinsed and drained, or 1 cup fresh, cooked, cleaned shrimp
1-3 cup chopped green pepper (opt.)

Make mix as directed on package. Fold cheese into batter. Spread in buttered 8-inch square pan. Bake in hot oven, 400 degrees, 20 minutes or until lightly browned.

Saute onion in butter until tender. Blend in flour, salt, sugar and pepper. Add milk, stirring constantly. Cook and stir until sauce is smooth and thickened. Add tomatoes, Worcestershire sauce, shrimp and green pepper; heat. Cut

corn bread into serving pieces and top with sauce. Makes 6 servings.

CHICKEN SALAD

2 cups chopped, diced chicken
1/4 cup chopped green pepper

1/2 cup diced celery
1/4 cup chopped pickle
2 finely chopped boiled eggs

1 teaspoon prepared mustard
1 teaspoon lemon juice
1/2 teaspoon salt
Dash of pepper
1/4 cup dairy sour cream.

In a bowl combine chicken, green pepper, celery, pickle and eggs. Blend together mustard, lemon juice, salt and pepper. Gently mix in sour cream. Fold sour cream into chicken. Chill well before serving. Yield: 3 cups.

MISSISSIPPI DEPARTMENT OF AGRICULTURE AND COMMERCE	
SUMMARY OF AGRICULTURAL AND LIVESTOCK MARKETS	
Summary of 16 Mississippi Livestock Auctions week ended June 29, 1978	
Total receipts 7,000 compared to 10,600 last week and 17,000 a year ago. Slaughter cows steady, bulls steady, feeder steers under 500 lbs. steady, to 3.00 higher, over 500 lbs. steady to 1.00 lower, heifers steady to 2.00 higher. Supply about 65% feeders, 30% cows. Most markets closed next week in observance of Independence Day.	
Slaughter Classes	
Heifers: Standard and Good 1-2 500-900 lbs. 42.00-51.75	
Cows: Commercial 2-3 32 50-30 25, Utility 1-3 31.00-40.00, Culler 1-2 29.50-36.75, Canner and Low Culler 25.00-30.00	
Bulls: Yield Grade 1-2 1000-1600 lbs. 39.75-46.25	
Cullows: Good and Choice 200-500 lbs. 45.00-55.00	
Feeder Classes	
Steers and bulls: Choice 200-300 lbs. 66.00-70.50, mostly 66.00-75.00, 300-400 lbs. 64.00-73.00, 400-500 lbs. 57.00-67.00, 500-600 lbs. 50.50-59.50, 600-700 lbs. 48.50-55.50, Good 200-300 lbs. 60.00-70.00, fair to 75.00, 300-400 lbs. 54.00-65.00, Brahman Cross to 70.00, 400-500 lbs. 52.00-61.00, Brahman Cross to 65.00, 500-600 lbs. 48.25-59.00, 600-700 lbs. 44.00-51.50, Standard 200-400 lbs. 42.00-56.00.	
Heifers: Choice 200-300 lbs. 48.00-59.00, mostly 50.50-55.00, 300-400 lbs. 47.00-52.50, 400-500 lbs. 46.00-52.50, Good 200-300 lbs. 44.00-50.00, Brahman Cross to 50.00, 300-400 lbs. 41.00-51.00, 400-500 lbs. 41.00-50.00, 500-600 lbs. 39.50-49.00, 600-700 lbs. 37.50-45.75, Standard 200-500 lbs. 40.00-49.00.	

White Cypress

by Yvonne Ladner

255-1403

CUEVAS REUNION

The big news of the area this week is the family reunion planned for the Roman C. Cuevas Sr. family Sunday, July 9 at the church grounds at White Cypress.

All relatives are invited to attend, to bring a picnic lunch and their own chairs and fans. The day will begin about 10:30 a.m. and last until 4 or 5 p.m. Music will be furnished by the Moran family and any others who would like to play.

FAMILY GATHERING

One of the many family get togethers for the 4th of July Holiday was our family. We all enjoyed a fish fry at the home of our son and daughter-in-law Andy and Peggy Ladner at their new home in Diamondhead.

Attending were Elaine and Jay Prager and their son Bruno from New Orleans; Lynell and Darrell Ladner and their children, Marcus, Tarryl, Ruth and Gretina; David and Sharon Ladner and their children David and Tella; Lusia Nacaise Jr. and Cindy Nacaise; Marian and Phillip Nacaise and their children Phillip Jr. and Megan; Louis and Veronica Breaux and their children Joey and Jerod; Phyllis and Chandra Ladner, Gracie Mae Ladner and Butch Hale.

HAPPY BIRTHDAY

We would like to extend a late Happy Birthday wish to Carolyn Ring. Carolyn

celebrated the big day with a beach party. Helping Carolyn celebrate were Pam Metzler and her daughter Tessa; Cheryl Cummings and daughter Rhonda and son Jimmie; Betty Perry; John Rutherford; Mr. and Mrs. Carl Shaw; Mr. and Mrs. Ronnie Peterson, Ronnie II and Wendy; Mr. and Mrs. Carl Ladner Sr.; Mr. and Mrs. Carl Ladner Jr. and son Zachary; Andrea Ring; Bert Chevis; Madeline Prendergast and Shane Kowalski. Her cake was baked by Paul Bernhard. It was red and white with blue candles.

Happy Birthday wishes are due also to my husband Melvin on July 10, nephew Tarryl Ladner on July 11 and to a great friend in New Orleans, Mrs. Ellen Prager, July 13. Also to all others who have a birthday this month.

GET WELL
Get well wishes are extended to Mrs. Emma Ladner, Kirk Martin and all others who are sick in our area. Kirk was injured in an accident while skydiving. He is recuperating after surgery on his foot in Memorial Hospital in Gulfport.

FOOD for THOUGHT

An Agricultural Concern Of Interest to Everyone

The American love of coffee is still a mighty expensive habit. Imports of coffee totaled about \$1.2 billion last year. It also accounted for about half of the total food cost increase for the year.

As a comparison, the value of just coffee imports into the U.S. was higher than all farm products exported to any one country. Coffee imports even topped exports to Japan - our biggest farm product customer by far. Also, we were nearly three times the value of farm exports to either West Germany or the U.S.S.R. - our next biggest customers.

Presented by this publication and Sperry New Holland to promote a better understanding of the modern farm to family food supply system.

DID YOU KNOW?

SUPPLY AND DEMAND IS THE BALANCING ACT OF OUR AMERICAN ECONOMIC SYSTEM...

AND MONEY IS A CONVENIENT WAY TO EXCHANGE OUR GOODS AND SERVICES.

THE MARKETPLACE, GEARED TO OUR MONETARY SYSTEM, IS WHEREVER BUYERS AND SELLERS MEET TO EXCHANGE GOODS AND SERVICES.

STATE OF MISSISSIPPI
OFFICE OF SECRETARY OF STATE
JACKSON

CERTIFICATION OF INCORPORATION
OF
GENERAL HOMES - GULF COAST, INC.

The undersigned, as Secretary of State of the State of Mississippi, hereby certifies that duplicate originals of Articles of Incorporation for the above named corporation duly signed and verified pursuant to the provisions of the Mississippi Business Corporation Act, have been received in this office and are found to conform to law.

ACCORDINGLY, the undersigned, as such Secretary of State, and by virtue of the authority vested in him by law, hereby issues this CERTIFICATE OF INCORPORATION, and attaches hereto a duplicate original of the Articles of Incorporation.

(SEAL) Given under my hand and Seal of Office, this 28th day of June, 1978.
Heber Ladner
SECRETARY OF STATE

FIRST: The name of the corporation is GENERAL HOMES - GULF COAST, INC.

THIRD: The specific purpose or purposes for which the corporation is organized stated in general terms are:

To engage in general construction, contracting and building businesses, including the designing, building, repairing and remodeling of houses, buildings, streets, roads, sidewalks, and any other types of structures and improvements; to engage in the business of developing subdivisions for residences and commercial buildings, including the right to buy and sell land and property for such purposes and the doing of any and all lawful things incidental to the planning, development and completion of such subdivisions; to buy, sell and trade in houses, buildings and other structures; to invest in any type of real, personal and mixed properties, and in any type of lawful securities; to engage in the real estate business, including the right to buy, sell, trade in, rent and lease real estate for itself and for others; to execute contracts, deeds, bills of sale, and assignments; to solicit general insurance business and to act as agent and broker in soliciting and writing any and all types and forms of insurance, and to represent insurance and surety companies of all types; to borrow money and to execute notes or any other types of evidences of indebtedness therefor and to secure loans by deeds of trust, mortgages, assignments or pledges of any of the property of the corporation; and generally to make, execute and perform contracts of every kind and description; to do all things necessary, suitable or desirable for the accomplishment of any of the purposes set out hereinabove, either alone or in association with others; and to do all things incidental to the aforesaid purposes.

FOURTH: The aggregate number of shares which the corporation shall have authority to issue is five hundred of the par value of Ten and no/100ths - Dollars (\$10.00) each.

NINTH: The name and post office address of each incorporator is:
R. D. Young, 1015 Pass Rd., P.O. Dwr. Y, Gulfport, Ms 39501.
Anne L. Pope, 1015 Pass Rd., P.O. Dwr. Y, Gulfport, Ms. 39501

Chester Lee farm to be site of prisoners Bible rally

The Chester Lee farm, located in northwest Hancock County 10 miles east of Piquette, will be the scene of an all-day benefit rally for the Prisoners Bible Crusade Saturday, July 15th.

Activities are scheduled to get under way at 10 a.m., and will include softball games, airplane rides, aerobatic stunts, gospel singing, and political speaking.

Food for sale includes gumbo, shrimp, fried catfish, hamburgers and cold drinks. Proceeds will go to the Crusade to purchase and

distribute Bibles to prison inmates.

Featured speakers include Maurice Dantin, Columbia, and Thad Cochran, Jackson, candidates for the United States Senate in the November general election. Dantin is tentatively scheduled to speak at 11 a.m. and Cochran later.

National headquarters of Prisoners Bible Crusade, Inc. is located on the grounds at the site of the rally. Prisoners Bible Crusade, chartered as a non-profit corporation July 20, 1973, has given more than 40,000 Bibles to inmates in correctional institutions in 29 states and two foreign countries, about one third of requests received, according to a crusade spokesman.

Dr. L.S. Walker, spokesman for the Crusade, said, "The work of Prisoners Bible Crusade is an outreach for the unreached."

Rehabilitation does not always work, but regeneration does," he added.

For information about work of PBC or the rally, call 798-6431, or write Prisoners Bible Crusade, Inc., P.O. Box 696, Piquette, 39466.

Book Review

By Hart Stern
Bay St. Louis

The Smithsonian Institution in Washington has published its first major book for the general reader, and the work is available at the reference desk of Hancock County Public Library in Bay St. Louis.

Titled "The Smithsonian Experience," it takes you behind the scenes for an intimate word-and-picture portrait of our unique national institution; a portrait wholly unlike any ever attempted before.

First of all, please understand that this is not "just another museum book." Far from it. When the editors conceived this project, they decided that just as the Smithsonian is special, so any book would have to be very special too.

And, they have succeeded with glowing color; lively photographs and charming drawings; 38 sections of delightful text, grouped in 8 major chapters, inviting you to a fascinating and often completely unexpected reading experience that manages to reflect the special character of the Smithsonian itself.

In its 256 oversized pages, you'll find more than 400 illustrations, most of them in color; scores of specially commissioned photographs, and original drawings by Paul Hogarth, direct descendant of Britain's great satiric artist, and youth find nearly 100,000 words of the most authoritative, memorable and readable chapters by writers, both serious and humorous, learned and witty—all of them lucid and fun to read.

Is it possible that a single book has captured all the kaleidoscope of objects and activities and personalities that make up the Smithsonian? Frankly, no one book could do that. But you will be astonished at how very much you will find in these pages about the institution's origins, its architecture, its discoveries, its wealth of treasures.

You'll watch an exhibit being built, join children as they touch a piece of the moon. Marvel at highlights from 70 million artifacts and specimens in the Smithsonian collections, and learn how curators care for this heritage.

Share the life of the dinosaurs; trek with Smithsonian researchers into the wonders of tropical biology; lolligag at the National Zoo, home of giant pandas.

Look over the shoulders of Smithsonian astrophysicists as they open new windows on the universe and its meaning.

Tap your foot at the Smithsonian's celebrations of folklife and take vicarious part in an early 19th-century expedition to the Arctic.

Enjoy a panorama of images of the country's newest and most spectacular museum, the National Air and Space Museum—photographs made especially for this book over a period of weeks of nighttime shooting.

This—and more—is packed into a remarkable book in dazzling photo essays, each a kaleidoscope itself... and in essays by the experts, the Smithsonian's own leaders in its many fields of endeavor.

This week on the Coast

SUNDAY, JULY 9

Annual Antique Show & Sale sponsored by The Episcopal Church of the Redeemer, MS Coast Coliseum & Convention Center.

MONDAY, JULY 10

Icarus, Rock Group, will give a concert at 8:00 p.m. at Jones Park, Gulfport.

NEW HISTORIC SITES

New entries in the National Register of Historic Places include Cotesworth, located on a picturesque 900-acre estate near North Carrollton, and the Henderson-Britton house, also known as Magnolia Hall, on South Pearl Street in Natchez. Cotesworth was the home of district attorney and United States Senator James

Zachariah George, the state's most dynamic leader during the Reconstruction Era. The house was constructed around 1840. Magnolia Hall was completed on the eve of the Civil War in a period of vigorous growth for Mississippi. It was the home of prominent merchant Thomas Henderson.

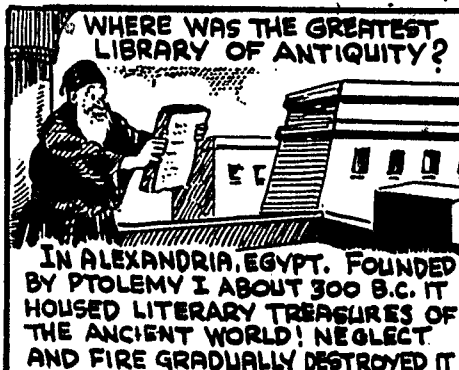

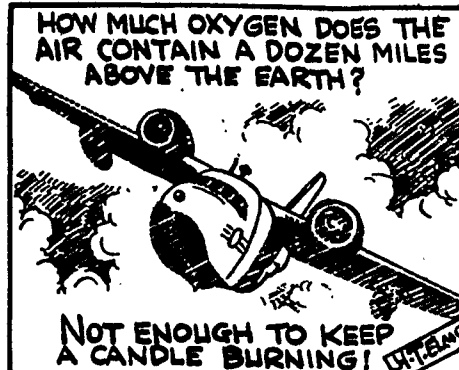

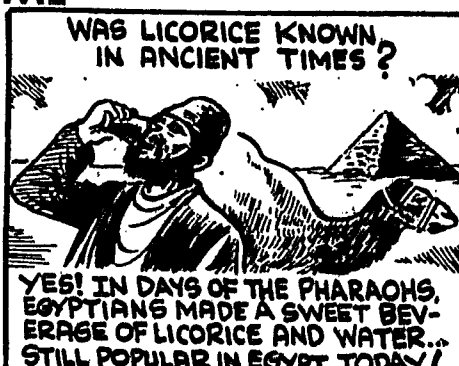

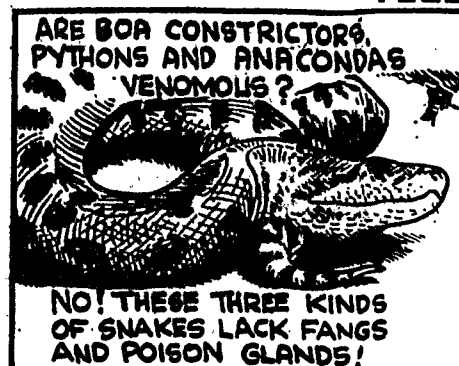

PUGGY

THE FIZZLE FAMILY

TELL ME

The Ole Pastor Says

WHAT IS WORLDLINESS? In a scriptural and historic context it alludes to the hedonistic philosophies of this world system.

It is human activity with God left out. It is life that is horizontal only, and not vertical.

"Ye adulterers and adulteresses, know ye not that the friendship of the world is enmity with God? whosoever therefore will be friend of the world is the enemy of God?" (James 4:4)

The "World" in this passage, as in some others, has reference to a sinfully depraved human race blinded in sin and steeped in carnality.

Worldliness is ambition without aspiration. Its goal is success, and not holiness. Hearing no divine voice, it is destitute of reverence. It accepts a sense of value which are not compatible with the Word of God.

It loves and maintains its own religion, altered and compromised to suit its own carnal and corrupted imaginations. It never bows in rapt, silent wonder in the secret place.

It has desires but no supplication. God is not denied - He is forgotten and ignored. Its affections are not set on "things above," but the things of this "present evil world." IT IS HEDONISM DOING ITS THING.

This, in part, explains why God said: "Love not the world, neither the things that are in the world. If any man love the world, the love of the Father is not in him. For all that is in the world, the lust of the flesh, and the lust of the eyes, and the pride of life, is not of the Father, but is of the world" (1 John 2:15-17).

Let us leave with you one other concluding scripture reference on the subject:

"For the grace of God that bringeth salvation hath appeared to all men, teaching us that, denying ungodliness and worldly lust, we should live soberly, righteously, and godly, in this present world; looking for that blessed hope, and the glorious appearing of the great God and our Saviour Jesus Christ; who gave himself for us, that he might redeem us from all iniquity, and purify unto himself a peculiar people, zealous of good works" (Titus 2:11-14). - L. S. Walker, D.D.

TETANUS

There is nothing so discouraging to the horse owner as not being able to ride. Yet many riders sacrifice days and weeks of riding time by letting minor horse injuries develop into major medical problems.

One horrible result of an outwardly insignificant puncture wound in a horse can be the animal's death from tetanus.

Puncture wounds are narrow but deep injuries where the skin heals quickly, trapping debris and tetanus bacteria inside.

Discarded bailing wire and splintered stall sides contaminated with dirt or other foreign material are only two of the causes of this type of injury.

Such wounds, properly treated, pose little danger to a horse. Tetanus bacteria are unable to grow in healthy tissue, a disinfected wound or an open cut exposed to the air.

A neglected injury, however, containing debris and dead or damaged tissue, is the ideal location. Tetanus may develop if sanitary conditions are not maintained during surgical procedures such as gelding.

Once the bacteria are sealed into a wound, they multiply rapidly, producing a toxic substance with a strong affinity for nervous tissue.

This toxin travels toward the spinal cord, producing muscle stiffness near the infected wound. As the stiffness spreads, the horse finds walking, turning and backing

difficulty; its tail becomes stiff and extended. The muscles of the neck and jaw may also be affected, which has led to the use of the term lock jaw.

Muscle stiffness is generally the first sign of trouble the horse owner sees. The original injury probably healed days before, if it were noticed at all.

As the disease progresses, the horse's nervous system is easily over-stimulated. The classic test for tetanus—a sudden, loud noise—will cause muscle spasms over the horse's body.

If you suspect your horse has tetanus, have it examined by a veterinarian as soon as possible. Treatment includes an injection of tetanus antitoxin, possibly supplemented with tranquilizers to reduce nervous strain.

Your part will be to provide good nursing care and a quiet darkened stall. The horse will be unable to lower its head to eat or drink; you must raise the food and water buckets up to the horse's level.

If the animal survives the infection—frankly very few do—it will probably require several weeks of intensive therapy with good care and nursing.

The tetanus bacterium is found worldwide, particularly in soil contaminated with the feces of domestic animals.

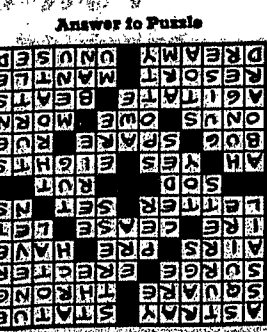

Prompt removal of scrap metal and other trash from the barn and pasture will reduce the number of injuries that give tetanus its start.

Be certain to ask your veterinarian about permanent immunity for your horse in the form of an injection of tetanus toxoid plus a yearly booster shot.
